ABOUT ME

I consider myself a responsible, honest, and highly committed person. Whenever I become involved in a project, I give it my full dedication. I strive to excel not only from a technical perspective but also as a teammate. Teamwork, resilience, a growth mindset, and a results-oriented approach are values that guide both my professional and personal life.

EDUCATION AND TRAINING

12/09/2022 – CURRENT Mostoles, Spain

Doble grado de Diseño y desarrollo de videojuegos e ingeniería de computador Universidad Rey Juan Carlos

Game programming and software development (C#, C++, Java, Python, game engines, artificial intelligence, software architecture, and optimization)

Game design and development (game design, gameplay mechanics, game systems, user experience, prototyping, and technical documentation)

Digital art and content creation (2D and 3D art, 3D modeling, texturing, animation, UI design, and music composition)

Computer engineering and advanced technologies (data structures, algorithms, databases, parallel computing, computer networks, distributed systems, and computer architecture)

Project development and teamwork (Agile methodologies, Git version control, problem-solving, communication, and collaboration in multidisciplinary teams)

Level in EQF EQF level 6

WORK EXPERIENCE

Tres Sistemas de Comunicación Villaverde, Spain

Internship

16/06/2023 – 16/09/2023

Technical skills

Tendering

Supplier relations

SKILLS

Unity (digital game creation systems) | design principles | C++ | C# | C,C++,C Programming | Python (computer programming) | Java (computer programming) | use markup languages | SQL | Git/Github, Docker, Gitlab | compose music | Game Design | Adobe Photoshop | Adobe (Premiere, Audition, Photoshop, Acrobat) | stimulate creativity in the team | build team spirit | develop creative ideas | prepare shipments in time | Microsoft Office: Word, Excel, Powerpoint, Outlook, OneNote | Version Control (Git) | Databases (MongoDB MySql PostgresSql) | Artificial Intelligence and Machine learning

LANGUAGE SKILLS

MOTHER TONGUE(S): Spanish

Other language(s):

English

Listening B2

Reading B2

Writing B2

Spoken production B2

Spoken interaction B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

11/09/2025 – CURRENT

Legado de Sangre

Legado de Sangre is a third-person survival horror game that combines exploration, stealth, randomness, and resource management within a non-linear environment. Players take on the role of an heir trapped inside a cursed mansion, where they must survive several nights while uncovering the horrifying secrets of their family's bloodline. The story revolves around the protagonist's family tree becoming a literal nightmare, with each ancestor represented by a different supernatural entity.

The game is being developed by **BollyChaos**, a university team formed by students from Rey Juan Carlos University who share a passion for creating video games.

We are dedicated to crafting unique experiences that combine innovative gameplay mechanics with memorable stories. We love experimenting and aren't afraid to break the rules.

We are currently developing **Legado de Sangre**, a horror game where your blood is your curse, and your inheritance is your worst nightmare. Are you brave enough to face it?

Meet the Team

Eduard Florea – Programmer & Game Designer

Laura Facenda – 2D Artist & Game Designer

Adrián Gómez-Lobo – Backend Developer

Víctor Manuel Moreno – Game & Level Designer

Jose Manuel Pastor – Programmer & Composer

Héctor Santamaría – 3D Artist & Animator

My Role

In this project, I was responsible for designing and implementing the behavior of every enemy in the game. I also composed the entire original soundtrack and contributed to other areas of development, including game design and gameplay programming.

Legado de Sangre is a long-term project with the goal of being released in the future, with the ambition of eventually becoming a commercial. The team is currently focused on further improving its graphical quality and technical aspects to deliver a polished experience ready for the market.
